Also, liver conditions, just live, be ordered, easily diverses, characters of the skin, liver and kidneys, best dependent of the skin, liver and kidneys, best of appetite, how yellous, nearest headards, gilliness, pulphaneout the heart, sinking and tulke so foreign at the stomach, and all often diverses searest by an impose state of the blood, liver, kee, which tend to debilitate and weaken the system.

Foundes who suffer from a mobile on I amentural condition, will find this undivide of INESTIMABLE VALUE.

In all cases of General Tebulay this Medicine ACTS LIKE A CHARM.

The full value of certificate is from an old gentlem who readily acknowledges the Bitters the only thing that keeps him alive.

min who readily acknowledges the Bitnes the only thing that keeps him alice.

Dear Sir :— Hereby offer you a willing to dismost by your valencle Bitnes; I hereby the you willing to dismost be your valencle Bitnes; I hereby have where to find words to thank you for the good at him done my I would not be without it on any account, and howestly lells se that it is the only thing that keeps me alive.

Thate recommended it to many of my friends; they all speak of it in the highest terms, which it richly deserves.

You are at liberty to refer any one to me at regards your valuable compound.

WALTER SIMONSON,

33 Pourth street, Williamsburg,

Read the following from an eniment physici in:

The undersigned being acquainted with stone of the ingredients of flutchings Vegetable Dyspepsia Bitters, and having area it for some time in his practice with every desired effect, he recommends this medicine from the certainty of its effect, and gives it a preference over all perparations in residence for that discressing complaint, Dyspepsia

T. HARDEMSERGH, M. D.

From Lather, A. Wyrom, Esq., late President

No. I Bruch street, N. Y.

From Lather A. Wyman, Esq., Inte. President of New York Musical Society, now of Brooklear. The understigated was affilted with Dyspessio of the worst form for one year and a half, during a greater portion of which time he made use of macrocaches, but suffered the disease to take care of itself, until he was recommended to my fluttlying. Dyspepsia Bitters; he way soon derived benefit from the use of a few books of this mechanical and now considera himself entirely well. The understigued has every confidence in the efficiency of Hutching's Bitters for the care of this troublesmes and daygrous complaint, and he has no hesitation in recommending it as a most valuable medicine.

N. York, Sept. 8, 1849 L. B. WYMAN, 38 Barling Slip.

The following certificate is from Mr. Brady, the celebrated Daguerrestonist:
Having been amorted very severely with Dyapping together with extreme unkness be was advised at take Herchings! Dapping Hitters, and have every moving to believe it has perfectly cured me. I have felt me aportions of a return of the disease and believe from the effect it had on me that it will cure the wonstreases of Dyappin.

FATHER, 150 Sides San brainers of

NEWPORT,

BY CRANSTON & NORMAN 127 THAMES STREET.

MONDAY MORNING, JUNE 2, 1851.

Wo Two of the persons who were ar rested on Thursday last at the United States Hotel, have plead guilty to the charge of petry larneny and will receive sentence on Tuesday next. We are happy to learn that arrangements are being made to return one of the lads, against whom no complaint has been entered, to his mother in Albany. This is a sind and justeious measure. The child, for he is but a child, was enticed from his home, in his father's absence, a fortinght since, and but for this timely arrest would have been soon fitted for the dark and miserable career on whiel he had entered.

It is to be hoped that once more with in the influence of maternal affection the baleful lessons that have been recently raughthim will be forgotten, and that he may live to fill with joy the heart that has since his sadden and mysterious disappearance been wrong with anguish. We know of but few offences more aggravated than that of introdu eing children, comparatively innocent and wholly inexperienced into the aboutinable mysteries of rife and rotten crine. There is something appalling in the depravity that can stoop to this and when the social wrong of abducting children is superadded, the crime is fearfully augmented. On the other hand we know of but few duties more grate fal, than that of attempting to extricate those who have been partially raught in "the state of the fowler." This work pays well.

In laboring to reclaim old affenders we have not only a comparatively hope less task, but if successful, success, of fers no rectitution for the injuries that such offenders have theady inflicted or society. In preserving a child from the influence of evil example we no only prevent crime but we add to the virtue and moral strength of the community. And those act most wisely who secure the largest number of such trophies of intelligent phibauthropy and possizeal. To this point at the expense of almost all others should our municipal regulations; the discipline of our prisons; the mental training in our schools; the voice of the press; the in fluence of our firesides and the instructions of the Sanctoury tend, for it will remain forever true. "Proin up a sixtu in the way he should ga, and when he is old he will not depart from it, and its converse, is partly true.

The thornathey als, are of the tree they planted; It pieceed arm and they bleed;

The summary and a send,

LIVING FOR OFRERS.- The greatest of all practical inistakes is the attempt to secure suppliers by seeking our own interest exclusively, instead of living for the advantage and well being of otherr. If we were to set about giving the most perfect and infallible recipe for the production of the greatest amount of unbestable wretchedness, we should certainty say. Live for self-exclusively, supremely, and you cannot fail to be miserable, whatever your outward circumstances may be-high or low, rich or poor. The idea of living through a series of years, says the "Boston Register," without thinking of any thing beyond one's personal pleasure and profit. is not to be endured. It is narrow and low and bad enough at the outset: hor our general purposes in life re-net on the character. One who starts in 66with taking little interest except in what in some way promotes his oun wishes or advantage, will probably as he grows older, grow more selfish; his generous sympathies will dry up from disuse while the natural product of rellishness -the jealous and distrustful passions, a fretfal, complaining, misanthropic temper, will spring up into vigorous growth The man ceases to believe in the virthes of other men, and in the midst o the world, demos himself to a solitary and writched lot; while he who ende w ors to make himself useful to others. in a meted. by that effect confirming all generoes sentiments. The world grans brighter as he grows older. He lives loving and hard, and life goesdown in old age paydioned round along with all blesse menories.

So. John Franklin.-It was six years on Monday Issa since Sir John Franklieach different Sheerness on har dangered. experies and the vicines of his said. it is present time are but saight in St. Clas togeth wife, loging a $g(r_{\theta}, \theta) = 1$ is active in her effects (promote atting is for his discovery.

CHARLLOTON, May 28, The steamer Josper has arrived here She passed on suceday evening, the brique Savannah, Itom Savannah to N. Y., on live, best Tyber. The steam helg Tybee took the passengers and craw off. The less is about \$50,000.

THE EFFECT OF ADDATION.-The Greenville, (S. C.) Patriot of the 22d inst, publishes the following facts in illustration of the injury inflicted moon the State of South Carolina by the prolonged agitation and threats of recession from the Union. They form the atrongest arguments against the policy of the course which noisy demagagas a in that State are pursuing. South Carof foa pereists in toaking berself ridiculoas, and in retarding her prosperity by noisy declamation about her determination to do a thing she very well knows she never can do.

CAPITAL LEAVING SOUTH CAROLINA. We understand that a gentlemm of this place has recently carried ten thauams place has recently carried ten thou-sond dollars, in money, to invest in Georgia or Alabama, or place there at interest, in consequence of our taxation and civil commotion. This gendeman, too, is a member of the Southern Rights Association. We were likewise informthat application was made to another large capitalist in this district for a fean of a few hundred dallars, and he informed the applicant that it was not his purpose to lead out any more money in South Carolina. We have also heard it suggested that the business men in our community, having large demands owing to them, would commence a general collection in time for recession.-The tills of South Carolina banks are already beginning to return from Georoia and Alabama, under the suspicion that their credit will be affected by our civil connactions. In one instance, but a few days since, a gentleman drew from the bank in Charleston, for the upper country, five thousand dollars in ie, preferring to have his money in gold and säver, to bank bills. There can be no suspension of specie payments in that case where the money is wanted.

We were consulted the other day by a gentieman, who wished to make a purchase of some real estate, whether we thought the State would secole. If so, he did not intend to purchase. A gentleman just from Charleston, and a delegate, too to the late convention there, informs us that if it was certain the State would recede in six months real estate in the city would not sell at half price. In proparation for accession, a merchant of this place has already ordered his chipments to Savannah, instead of Charleston. Another of our citizens, who has perhops a hundred thousand dollars in Greenville, drawn from his estate in Geosgia, is about to leave the sinking ship,? and cost bis habitation where he may be quiet and live in peace. Thus, it is the anticipasecession are proving disastrous to the State. What will the reality be? It is a fearful question to answer. May the Almighty in his nucey avert so awful a calasary, should be the prayer of every true-hearted and patriotic Carol-

To these facts may be properly added the following from the (Charleston) Southern Patriot, as an indication of that public sentiment which we have always contended lies, broad and deep, under ciamor or the secession.---.

It will be seen that a large portion of our paper this week is filled with ex-tracts from letters received. We feel assured that our readers will take an interest in seeing what public opinion is in different sections of the country.— Heretofere public opinion, in opposition to secession, has been a seuled book in South Carolina, and the people of the other States were under the impression that we were a unit in our fully and madness. But it is manifest that, so far from being all in layer of secession, we are likely to be opposed to it. The great mass of the people are, and it will acon be sen that no one can doubt it. The newspapers and politicians will have to fall into the ranks at the people or stand alone. All hope of assistance from the other Southern States is gone. As one of our Charleston correspondents re-marks, the reaction in this city, since last fall, is incredible. But it is the same throughout the State. The payment of our chormons taxes, as our Hamburg correspondent remarks, has on Newport,) had not power, except in opened the eyes of the people to the beginning of their troubles. It is now time, dinate officer. This decision of Colonel as another correspondent remarks, to turn our attention to grievances in our government at home.

Bostron, May 26.

Head Quarters Eastern Division, } Trov., N. Y., May 27th, 1851, ORDERS No. 8.

The Court of Inquiry whereaf Prevet Colonel George Whiten, Major 4th Infinity, is President, instituted by Eastern Division Orders No. 4, current series, to examine into tertain Allegations and accusations made against Colonel William Gates, 3d Artillery, by 1st Lieutenant J. Stewart same Regiment, has submitted the fullowing report.
The Court finds the subject matter of

Lieut Stewart's letter of 23d November, 1550, embraced within the six alle-

gations following, viz:
Altegation 1st. That Colonel Gates had not been governed by a series of justice and a due regard for the Army Regulations relative to details, in assigning Officers to Light Company "E" 3d Artillery, by his detail of the 5th of September, 1850, and his promise to Brives Captain Shields, to be relieved at the end of the year, not being complied with.

Colonel Gates issued the order on 9th September, 1850, assigning Officens to Light Company E 3d Artillery: that Brevet Cuptain Shields who had served but eleven months was retained and Lieut. Stewart whe had served fourteen months, was transferred. There is no evidence before the court to show that Colonel Gates had not been governed by a sense of justice and due region the Army Regulations, or that regan had made any promise to Brevet Cap-tain Shields.

Allegation 2d. That the course of conduct pursued towards Lieut. Stevart by Col. Gates, and the frequent discussions held in the boat and elsewhere, in the presence of the boatman and enfished tion, were not calculated press the command with the belief tha he, Lieut. Stewart, was a favorite at Head Quarters. This together with Hend Quarters. the lax state of discipling at Fort Adains rendered it impossible for Lieut. Stewart to serve there, with justice either to himself or the service.

The court find the facts as follows That the intercourse between Colonel Gates and Lieut. Stewart, was some times strictly official, and at other times more approaching cordiality. There is no evidence before the court to show that discussions were held in the boat or elsewhere, in the presence of boatmen and enlisted men, calculated to impress the command with the belief that Lieut. Stewart was not a favorite at Head Quarters. The court finds from the evidence before it, that the discipline at Fort Adams was not neglected, nor in a lax state, but was tair and good.

Allegation 3d. That in order to make the transfer truly a punishment and to gratify a vindictive spirit totally unworthy of one entrusted with the command n Regiment, Lieut. Stewart was transferred with the junior instead of the senior subaltern of the company who was the proper one for the detail.

The court finds the facts as follows: That the transfer of Lieut, Stewart with the junior instead of the senior subaltern of the Company was made with a view to gratify a windiana. Philipsotally unworthy of one entrusted with the command, does not appear from the evidence.

Allegation 4th. That Colonel Gates has employed the power with which he is entrusted for the purpose of gratifying realice and ill will entertained against a subaltern of his regiment. The court finds no facts to sustain

this allegation.

Allegation 5th. That the course of conduct pursued by Colonel Gues, brought about a state of things at his post, truly unfortunate for all concerned. That charges against Lieut, Stewart were entertained by Colonel Gates in a manner which every one must con-demn. That a kind of Drum Head denn. That a kind of Drum ricea Court Martial was organized for the trial of Lieut. Stewart, Colonel Gates being the sule judge and juror. The court finds that Colonel Gates

expressed an opinion for the government of his officers, that the senier officer present at the post, (when he left the post Gates, led to some difficulty at the post; this difficulty resulted (among other things) in the charges refuered to, in the allegation against Lieut. Stewart. The Court finds that Colonel Gates called before him witnesses, to examine into these charges, among other matters The coroner's jury, after examining not the causes of the death of Chas. S. Smith, of the firm of C. S. & J. G. Smith art night returned a verdiel that he is the court does not find any evidence to lead them to suppose that Colonel Gates cought to decide the questions, but rath-

The Court of inquiry of which Brevet Colonel George Wright is President, is discolved By command of Major General Wool.

O. F. Windship (Signed) A. A. G. J. F. Quarry, A true copy 1st Lieut. 3d Artislery, Adjutant,

The Beaver Island Expedition-A

King in Limbs .-- Yesterday morning, at a quarter past 9 o'clock, the U.S. Iron Stramer Michigan arrived at our dock having on board U. S. Marshal Knox, and his posse, U. S. District Attorney. Hon. Geo. C. Bates, and Adj. Gen. Schwarz, having returned from Beaver Island, whence they went last, week in pursuit of the celebrated James J. Strang. the reff-constituted king of all the curth and Beaver Island in particular, and The court finds the facts to be, that ithree of his dutiful subjects named Josoph Ketchons, Finley Page, and Wm. Toynsend. They were arrested, being charged with obstructing the U. S. mail, and assaulting with arms the mail carrier, counterfeiting U.S. coin, and depredations upon Government lands, &c. The sheriff of Mackinge Co. is also here, with several warrants against them for various offences. They were conveyed to the U.S. Court Room and placed in the custody of Deply Marshal Beardsley, and we presume the case will be submitted to the Grand Jury during its sittings, Strang was formerly from Chautauque Co., N. Y. The officers had but little difficulty in making the acrest. They first secured the District or Circuit Judge for the "Upper Peninsular," at Mackinack, who is also a Mormon. On satisfying him that they were prepared to accomplish beir object in their arrest of Strang, and that opposition would be futile, the Judge wrote Strang a letter informing hum of the existing state of facts, and the "king and court" of Beaver Island was soon in the hands of the officers without opposition-by voluntary surrender. The reputed career of this selfcrowned and self-constituted "king" and his followers on Beaver Island is known to the public. We await the developements of the facts in the case before the proper tribunals of the country. The 'chief prophet' was arrested, but was subsequently released with the Judge and others who were arrested. Strang, who is acknowledged to be the "head and front" of all authority in the "kingdom," is a tall, well proportioned perron, weighing about 170 lbs., some 40 years old, with an open countenance, indicating some cunning and shrewdnces, but we should not judge, a very resent that the appearance of the Island does not indicate either thrift or industry. Those arrested solemnly protest their innocence of all offences of which they are charged, either against the people of the "kingdom," foreign powers, or the "rest of mankind." [Detroit Advertiser, 27.

> PRACTICAL SATIRE.-At Syracuse, on Saturday, a fat negro woman, rigged out in new style, with a dress reaching just below her knees, flowing trowsers and gipsy hat, with streaming ribbons, promenaded the streets, attracting considerable attention. The dress was given her by some young gentlemen of the city.

HOME TESTIMONY.

SALT RHEUM, OF MANY YEARS STANDING.

THE following evidence of the efficiety of Dr. S. P. TOWNSENDY EXPLICIT OF SARSAPABILLA

In Cutaneous Diseases, is well worthy the notice of times afficied with such disagreeable exuptions:

Dr. S. P. Towesars—Dear Sir: I sm most happy to acknowledge that, after suffering for nearly nine your with the fall Rhoum in a very aggravated

form, and being abandoned as incurable by several

of our first physicians, I was finally permuded to try your fur-famed Sersaparilla. The effects were

soon perceptible, and when I had used ten bottles

so my great exception I found myself not only oured of that most disagreeable and irritating disease, but

my general health was so much improved that it

astonished my family and friends. Since then I have advised others to make use of your Medicine, and have noticed its wonderful elects curing in numer-

One diseases, not altogether caused by a bel state

Mrs. JANE SHAW, 103 Third Avenue.
P. S. You have my content to publish the above; and it will give me great pleasure to state my case personally to any lady that is similarly efficied.

COUGHS AND COLDS.

Dr. S. P. Townsend's Saresparilia contains just the gaulities that are requisits in these exers. It note as

a mild elterative and expectorent, thus changing the action of the system and enabling it to throw off

the complete. The number of instances in which

Coughs and Colds have been cured by this prepa-Coughs and control ration is framense.

BROOTLEM, June 13, 1859.

Dr. S. P. Townsend-Dear Sir: I was taken sick about a year ago, which was thought by many would result in Consumption. That used "old De."

who are the constant of the first called) Sarsaparilla, the brown and a (as he is called) Sarsaparilla, which done me no good. I then tried yours and an most happy to say it has entirely cured me. I am a

DR. HOOF LANDUS

DR. HOOFLAND'S CELEBRATED GERMAN BITTERS.

Prepared by

C. M. JACKSON, At the German Medicine Stone, 120 Arch Street, Philadelphia.

Their power over the above diseases is not excelled—it regulate—by any other preparation in the United States, as the cores attest, in many cases after skilled physicians had failed.
These litters are withy the attention of invasible. Possessing great virtues in the rectification of diseases of the Liver and Laser glands, exercising the next searching powers in weakness and affections of the digestive organs, they are withal, safe, certain and phenome.

READ AND BE CONVENCED. READ AND BE CONVINCED.

the AD and the vacation of a letter to Dr. Jackson, January 9, 1850, raid—

"My wife and myself have received more beneath from your medicine from you fer we have ever token for the Dyspepsin and Liver disease."

"The Tenth Legion," published at Woodstock Va., January 10, 1850, said---"A GREAT MEDICINE."

"A GREAT MIDICINE."

"We have uniformly oftained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice Is the German Bitters, invested by Dr. Boofland, and prepared by Dr. Jackson, in Phila delphia. One instance in particular, in which the superior vituos of this medicine has been tested, has fallen under our observation. Daring the last summer, a son of Mr. Abrahaat Craball, of this country, was very seriously afflicted with Liver county, was very seriously afflicted with Liver Complaint, and after trying in value various rene dies, he purchased a bottle of the Bitters, and after

dies, he parelessed a bottle of the flatters, and after using it, was so much relieved of his distressing malady, that he procured anothe bottle, and is restored yearied to "health READ FURC'HER A FEW FACTS Fram "The Welden Herall," published at Welden, N. C., January 25, 1850, which said"Patent Multimes."

"It is very suddon that we make any allusion to Patent Medicines, either approving or other wise. Unfortunately for the country, and for honest and conscientious inventors and venders of these medicines, the land is becoming flooded with quark preparations, that are made alone for profit, and are fit in the very for the dogs. In his state of things it is leard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he preclasses, he is very spt to condemn the whole of them and hay more, and inventors must only blame those of their number, (who ignormathy conding money.) for number, (who ignormathy conding money.) for the ill raccess which attends the effort of she described."

the ill rateess which attends the effort of sile de-serving,?"

"We believe Dr. C. M. Jackson's 'Hoofland's German Bitters," to be a most excellent medicine, and one that should be highly popular in these days of Temperance—for they are altogether Vegenoble in their composition, without one drop of Alcohol-in Spirits in them. This medicine is imposed, but strengthening in the fifteet, and yields described but strengthening in its effects, and richly describing of an unbounded popularity, which, which the becomes known, it will, so doubt, fully enjoy."

become known, it will, no doubt, fully enjoy,"
Judge M. M. Nosh said, in his "Weekly Messenger;" January 6, 1850,
"Dr. Hoofflood's Germon Bitter.—Here is a
preparation which the leading greeces in the Union
appear to be unanimous in recommending, and the
reason is obvinus. It is made after a precription
formished by one of the most celebrated physician
of modern tinces—the late Dr. Christopher Wilhelp Messland, profuser to the Liversities." of modern times—the late Dr. Christopher Wilhelm Hooftund, professor to the University of Jena,
private physician to the king of Pruvisi, and one
of the greatest medical writers Germany has ever
produced. He was emphatically the memy of
knowlay, and therefore a medicine of which he was
the inventor and emborser may be confederally relied
on. He specially recommended it in Liver Couplaint, Dyspepsia, Debility, Vertigo, Acidity o
the Stemach, Constitution, and all exaplants
arising from alicordered condition of the stomach,
the liver and the intestines. Nino Philodelphia
papers express their conviction of its excellence,
and several of the editors speak of its effects from
their own individual experience. Under these
circumstances, we feel warranted, not only in call
ing the attention of our coders to the present proerromstances, we feel warranted, not only in earling the attention of our caders to the present proposetor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afficiete. The "Philadelphia Saurday Garette," the best family cowerquer published in the United States. The editor says of

DR. BOOFLAND'S GERMAN BITTERS : IM. BODFLAND'S GERMAN BITTERS:

Oh. is soldom that we recommend what are termed l'attent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly enderstood that we are not spenking of the nostrours of the day, that are noised about for a brief period and then forgotten after it has done its suplity race of mischief, but of and a doct for a oriet period and then torgotted after it has done its guilty rice of mischief, but of a medicine long established, universally prized, and which has met the hearty approbation of the faculty itself."

Evidence upon evidence has been received (like

Evidence upon evidence has been received time the fert going) from all sections of the Union, the last three years, and the strongest testimony in its lavor, is, that there is no re of it used in the peacition of the regular Physicians of Philadelphia, than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their callet approval when presented even in this form.

when presented even in this form.
That this incidition will case Liver Complaint and Byspepsin, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to caloned in all billous diseases—the effect is insuediate. They can be administered to female or infact with safety and reliable benefit at any time.

THERE LOP OF COLVATERFEITS BEWARE OF COUNTERFEITS.

MUNIARE OF COUNTERFEITS. This medicine has attained that high character which it necessary for all medicines to attain to induce counterfeiters to put if rith a sperious article, at the risk of the lives of those who are innocently deceived. Look well to the marke of the genuine. They have the written significated C.M. JACK SON upon the wrapper, and the name blown in the bottle, without which they are sparious.
